

# Inline Coating unit for Sheetfeed Offset Machines

**PPC**  
**PRINT PLUS COAT**

- Uniform Coating thickness with greater efficiency and repeatability
  - Easy to register and high production
  - Printing features of the main machine remains unchanged as the system is independent
  - The total investment is negligible as compared to other options
  - Can be fitted on sheet fed offset of any make and size
- Custom engineered to fit individual press

## Applications :

- Full and spot UV Coating
- Drip Off Coating, Primer Coating, Aqueous Coating

ADAST DOMINANT

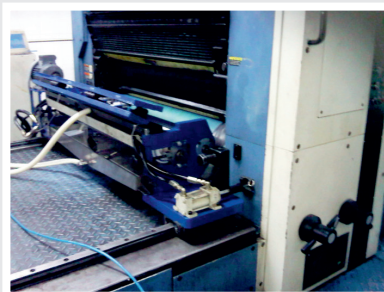

PLANETA

ROLAND

HEIDELBERG

KBA

KOMORI

## Features :

- Heavy Duty Construction
- Manual Retraction System to change between Printing & Coating
- Independent AC Motor & Frequency Drive
- Pneumatic Impression Synchronized with main Machine
- Varnish Recirculation System with Drip Tray
- Anilox Roller with Doctor Blade

## Optional Features :

- Chamber Doctor Blade System
