

Interdeck/End of Press UV Curing System

Features :

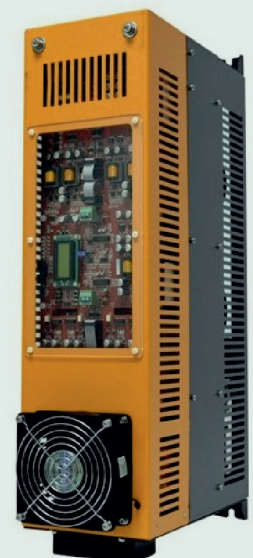

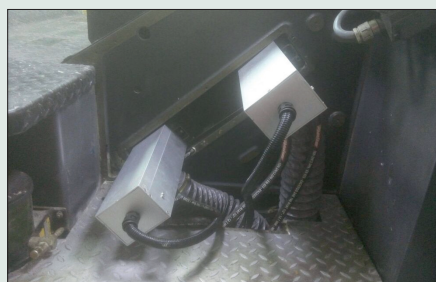

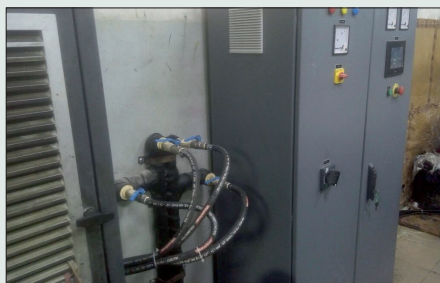

- Pneumatically operated shuttered UV cassettes
- Air and water cooled UV cassettes
- UV lamp - 300 -400 W/Inch
- Over heating safety system for cassettes
- HMI and PLC controlled panel
- All operational and status function integrated on HMI Screen
Integration of panel with main machine for activation of shutter system and reduction in output power of UV lamps

Optional Equipment :

- Electronic Power Supply for UV Lamp

Applications :

- For Full/Spot UV coating and drip off coating on offset machine with coater
- Sheet-feed offset machines - for printing on MET-PET, PP, PVC and other non absorbent surfaces
- Narrow, wide web Flexo machines
- Rotogravure machines
